

July 2007

Dear colleagues

DISTILLATE A3 Questionnaire

It is nearly three years since transport planners in your authority completed a questionnaire for us. The responses you gave have been key to shaping the research undertaken by DISTILLATE in the last three years.

We are hoping you will complete this second survey (half the size as last time). We want to understand how the context for transport planning has changed and also to help us target the DISTILLATE products more effectively.

As last time, we will be sending the questionnaire to you as a paper version and electronically. You will also be able to download the sections from the DISTILLATE website (<http://distillate.ac.uk/projects/project-a.php>) to send to different people in your authority.

Please can you return the questionnaire by **7th September** so that we can report to the Steering Group the following week. Our postal and e-mail addresses are below.

Many thanks for your cooperation with this. We will report our analysis of replies to you later on in the year.

Kind regards

Professor Angela Hull
